Road Construction Update

For Immediate Release: Tuesday, June 19, 2012

County Road 29 Opening

Crews from the Logan County Highway Department have completed the installation of bridge BR29-0.72. County Road 29 and Township Road 179 will be open to traffic beginning Tuesday, June 19, 2012 at 5:00 P.M.

When traveling CR29 be aware of the new traffic control installed at the intersection of CR1 (Ludlow Rd.), CR29 and Gunntown Rd. The change in traffic control is a result of a traffic engineering study utilizing crash history and traffic counts. Prior to this change in traffic control, the Logan County Engineer's Office has completed three site distance improvement projects and multiple signage adjustments since Gunntown Road was built. The number of crashes and the increase in traffic on CR 29 and Gunntown Road now warrant a four way stop at the intersection.

The Logan County Engineer's Office will utilize advance warning devices for the new traffic control through July 29, 2012. We encourage you to use extreme caution at the intersection as drivers learn and become familiar with the new traffic control.
